

Please remember to contact your training officer for final approval on all courses used to meet NCCP requirements. This list ONLY reflects the recommendations of MedicEd and courses may be approved/denied by your training officer.

The following is based on the NREMT 2012 NCCP content requirements at the advice of NREMT for 2017 recertifications. Beginning with the next recert cycle (2018) you will be required to follow the 2016 content which is NOT reflected in list.
